5-Year Review

Rescinded

The Common Sense Initiative was established by Executive Order 2011-01K and placed within the Office of the Lieutenant Governor. Under the CSI Initiative, agencies should balance the critical objectives of all regulations with the costs of compliance by the regulated parties. Agencies should promote transparency, consistency, predictability, and flexibility in regulatory activities. Agencies should prioritize compliance over punishment, and to that end, should utilize plain language in the development of regulations.

Regulatory Intent

1. Please briefly describe the draft regulation in plain language.

Please include the key provisions of the regulation as well as any proposed amendments.

**4713-21-06 Applying for inactive licensure status and temporary work permit.
(Amended):**

This rule establishes the procedures for placing a license in an inactive status and for obtaining a temporary work permit for individuals holding inactive licenses, as required by R.C. 4713.08(A)(18) and 4713.61. The rule is being amended to correct the rule citation noted in paragraph (B) of the rule. There are no other proposed amendments to the rule.

2. Please list the Ohio statute authorizing the Agency to adopt this regulation.

4713.08(A)(18), 4713.61.

3. Does the regulation implement a federal requirement? Is the proposed regulation being adopted or amended to enable the state to obtain or maintain approval to administer and enforce a federal law or to participate in a federal program?

If yes, please briefly explain the source and substance of the federal requirement.

No.

4. If the regulation includes provisions not specifically required by the federal government, please explain the rationale for exceeding the federal requirement.

Not applicable.

5. What is the public purpose for this regulation (i.e., why does the Agency feel that there needs to be any regulation in this area at all)?

The Board has decided to offer licensees who are not currently practicing, but may wish to do so in the future, the opportunity to classify their license as inactive. As a result, the Board is statutorily required to have such a rule.

6. How will the Agency measure the success of this regulation in terms of outputs and/or outcomes?

The success of the regulation will be measured by the number of licensees who chose to take classify their license as inactive, and by the feedback provided by these licensees.

Development of the Regulation

7. Please list the stakeholders included by the Agency in the development or initial review of the draft regulation.

If applicable, please include the date and medium by which the stakeholders were initially contacted.

The Board did not seek any stakeholder input on this proposed amendment to the rule because the amendment only corrects a citation error. When the rule was previously amended, the Board placed the rule on its website, requesting input and comments from all interested parties. Additionally, notification of this proposed rule change was emailed to all entities and persons currently on our interested parties list, along with a response email address.

8. What input was provided by the stakeholders, and how did that input affect the draft regulation being proposed by the Agency?

Not applicable to this amendment. The Board did not receive any stakeholder input during the previous amendment to the rule.

9. What scientific data was used to develop the rule or the measurable outcomes of the rule? How does this data support the regulation being proposed?

The Board did not employ scientific data to develop this rule. The rule simply outlines a common-sense process in accordance with the requirements of R.C. 4713.08(A)(18) and 4713.61.

10. What alternative regulations (or specific provisions within the regulation) did the Agency consider, and why did it determine that these alternatives were not appropriate? If none, why didn't the Agency consider regulatory alternatives?

The Board did not consider alternative regulations because this rule simply follows the requirements set forth in statute.

11. Did the Agency specifically consider a performance-based regulation? Please explain. *Performance-based regulations define the required outcome, but don't dictate the process the regulated stakeholders must use to achieve compliance.*

No. Statute requires the Board to establish a process with this rule.

12. What measures did the Agency take to ensure that this regulation does not duplicate an existing Ohio regulation?

The Board is the sole entity tasked with the regulation of the branches of cosmetology in Ohio.

13. Please describe the Agency's plan for implementation of the regulation, including any measures to ensure that the regulation is applied consistently and predictably for the regulated community.

This rule will be posted on the Board's website and notification, with detail, will be sent to all regulated persons and businesses that may be impacted.

Adverse Impact to Business

14. Provide a summary of the estimated cost of compliance with the rule. Specifically, please do the following:

- a. Identify the scope of the impacted business community;
- b. Identify the nature of the adverse impact (e.g., license fees, fines, employer time for compliance); and
- c. Quantify the expected adverse impact from the regulation.

The adverse impact can be quantified in terms of dollars, hours to comply, or other factors; and may be estimated for the entire regulated population or for a "representative business." Please include the source for your information/estimated impact.

The rule references a fee, but this fee is required by R.C. 4713.08(A)(18) and is established in Ohio Adm.Code 4713-1-17. The adverse impact of the rule is that compliance with the rule, however, does require the reporting of the information to the Board.

15. Why did the Agency determine that the regulatory intent justifies the adverse impact to the regulated business community?

The rule is specifically required by statute.

Regulatory Flexibility

16. Does the regulation provide any exemptions or alternative means of compliance for small businesses? Please explain.

The rule only applies to individuals, not businesses.

17. How will the agency apply Ohio Revised Code section 119.14 (waiver of fines and penalties for paperwork violations and first-time offenders) into implementation of the regulation?

There are no fines or penalties associated with this rule.

18. What resources are available to assist small businesses with compliance of the regulation?

There are no special resources required to comply with this rule.
